

## Peninsula Vinicultores

### VINO DE MONTAÑA

D.O. Sierras de Gata y Gredas

Two Masters of Wine cofounded PENINSULA VINICULTORES - Andreas Kubach MW, leads Production and Sam Harrop MW heads up Viticulture - they teamed up with Tao Platon Winemaker to create viable market access for wines made from vineyards in risk of being abandoned in the Sierra de Gredos region - assuring a fair and sustainable income for growers and the communities that depend on them. They applied their Creed of Sustainability, a balanced approach to intervention they call Sympathetic Wine-making to produce authentic wine with a sense of place, freshness and value.
