

## Dragonette

### PINOT NOIR

A.V.A. Santa Rita Hills

Located at the cool, foggy windswept western edge of northern Santa Barbara County, Sta. Rita Hills is justly renowned for producing world class Pinot Noir. We select several distinctive vineyard sites in diverse soils, elevations, and aspects, and then farm these sites with exacting detail to obtain fruit of extraordinary quality. This fruit is gently shepherded into Pinot Noirs of aromatic and flavor complexity, textural purity and impeccable balance. This wine is a selection of individual barrels, each intended to add nuance and interest to the final blend.
