

## Maturana Winery

### PARELLON

SAG Colchagua Costa, Paradones

Jose Ignacio Maturana saw his family house and vineyards destroyed by Chile's major earthquake in 2010. As a result, he travelled to Burgundy in 2011 to make wine during the Chilean winter. There, he immersed himself in the techniques used in the region.

Once back in Chile, he and his family started the production of unique wines that they hoped would display a sense of place and that represent a way of life. Together they created Maturana Wines, a project based on vines of more than 70 years old, which are worked completely by hand and following organic principles.
